21 May 1959

Dear Mr. de Seynes,

Next week it is my intention to engage in a series of individual discussions with heads of departments and offices and of special programmes. During these discussions there will be opportunity for a thorough review of staffing problems, work programmes and major policy problems and trends affecting your department.

I would hope that you would give some advance thought to this review and engage in the necessary discussions with your senior officers with a view to covering the subjects mentioned above.

Would you please reserve an hour at five o'clock on Tuesday, 26 May for this discussion.

Yours sincerely,

Dag Hammarskjold
Secretary-General

Mr. P. de Seynes
Under-Secretary for Economic
and Social Affairs

1 July 1960

Dear Philippe,

Tsiang today gave me the enclosed curriculum vitae for a Chinese which they would like to succeed the man which has been released from ECAFE for renewed home service (you may know that he is now Minister of Communications). This candidature is, of course, presented on the basis of the assumption that we will follow through the assignment to Headquarters of the ECAFE official which the Chinese wanted -- and, in the first place, still want -- to be promoted. We may have a word about it when we meet in Geneva.

Mr. Philippe de Seynes,
Palais des Nations,
Geneva.

INCOMING CODE CABLE

TO: SECRETARY-GENERAL
FROM: DE SEYNES, GENEVA
DATE: 23 AUGUST 1960 1550
NUMBER: UNCVA 1837

Reference your 1801: 1. I assume Heurtematte reported United States demarche.

2. I saw Seidenfaden and had a quite good opinion of him. He is not impressive at first sight but he would be very active, open-minded and desirous to achieve results even if modest ones which is probably what is most needed at this stage. Too powerful personality would inevitably be frustrated.

3. Baron von Platen mentioned by United States to Heurtematte not available in Geneva at present.

4. I saw Tuomioja two days ago. He also mentioned possibility of Brofoss, head of Central Bank of Norway. Brofoss had been a candidate at the time of Myrdal's succession. There is no indication as to whether he is still interested.

NUMBER: UNOVA 1852

Reference your 1819. Yugoslav very popular among staff. His appointment would be welcome. If number 2 can be removed it might be possible to move Strauss to deputy job which would satisfy United States and permit appointment of more active head of Research Division. Such a solution would be very satisfactory. If Danish is abandoned he might be considered for job in Africa since he definitely desires a change of occupation.

Have you been able to give any further thought to, or do anything about succession to Tuomioja? Grateful urgent reply. For my own part I start seeing only official candidate in somewhat changed light.

On basis of your cable I asked Heurtematte and thus got the message.

If US accepts Yugoslav candidate, my interest in him is very much strengthened and definitely is also Eastern candidate. We would have to change second man but that can be done in due time. Von Flaten absolutely excluded and proposal surprises me.
