D.H.'s statement in plenary session
of the General Assembly.

Secretary-General's statement in plenary session of the General Assembly on 18 January 1957. (A/PV.641, page 33).

The Secretary-General: The representative of India has addressed to me a direct question which referred to certain questions mentioned by the Foreign Minister of Israel. Those questions were first presented in the first reply of the Government of Israel to a request for a cease-fire. At that time they were circulated as a General Assembly document. They have not formed the basis for any kind of negotiations, the only basis for negotiation having been the General Assembly resolutions.
