My dear Secretary General

Thank you so much for your letter of January 15 which Professor Waldock brought back for me. Lord Reading has since given me an account of his interesting conversation with Waldock.

I am indeed glad that we were able to be of some small assistance to you in your very difficult task and I am grateful for the kind things you have said about Waldock and Trevelyan.

I look forward very much to receiving in due course your observations on the Peking situation.

With kind regards,

Yours sincerely

Anthony Eden

His Excellency
Monsieur Dag Hammarskjold.
