Realizing that you are an extremely busy person, I shall make myself very brief. First of all, I want to congratulate you on the wonderful job you are doing as Secretary General of the United Nations. It is amazing how you can stand up against the impudent and insulting remarks casted upon you by so called intelligent representatives of nations who claim they are for peace and freedom

One thing above all Mr. Hammarskjöld, don't let the pressure of the Communist nations give you any idea of resigning. In your reply to the Soviet Union yesterday made me very proud to have a person like yourself as the Attorney General of the United Nations. You were not only firm in your reply but also your courtesy showed a great example to the entire world. I like millions of other people through out the world give you lots of credit and also place a great deal of confidence in you.

Every night before I fall asleep I pray to God that you shall have the continued courageous and unbiased work for the world's good - Bless you.

P.S. Excuse any mistakes

Dear Mr. Hammarskjold:

I am not a diplomat. I am a teacher - of little children, girls and boys 7 years old. It is in their name I ask you not to resign as Secretary General. They need you in your present position. Sometimes in the face of insuperable odds, we ask our children to continue the task at hand. When they do, we know they are stronger and better for it.

You have our loyal support and admiration.

I think
you have done and are doing a
superb job for the U.N. & for the

that you will continue in

The strain and fatigues you

It is my intention to join with other Quakers in presenting a gift of money to the United Nations on October 24 as a token of my glad willingness to support this our first shadowing forth of a true world government.

Dear Mr. Secretary-General:

Though the political complexities of the world in which we live stagger the imagination, let it be known, Mr. Secretary-General, that we, the students of Saint Joseph's College of Philadelphia, Pennsylvania, are in no way deluded by: (1) direct action taken by the Soviet Representation this month involving formal repudiation of your esteemed position, (2) Communist-inspired demonstrations, at the instance of the Congo Crisis, full of insult to the United Nations and to you which occurred at various places throughout our nation and the world, and (3) the Soviet Representation's insistence that the United Nation forces and experts be removed from the Congo -- in our faith in you and in the eminent body you so competently serve.

This Student Government of Saint Joseph's College, therefore, speaking in behalf of the entire Student Body, expresses its genuine respect, confident hope, and wholehearted support for you, Mr. Secretary-General.

Asking God to grant continued courage and patience to you in the tasks you face, I am

Dear Mr. Hammarskjold:

I have been following the proceedings of the United Nations on television and in the newspapers. Now I feel the time has come to congratulate you upon the calm manner with which you handled a difficult situation. Yours, indeed, is a very trying task because so much depends upon its successful completion. It is also one which many would count as thankless. It is not easy to act the role of mediator: it takes dauntless courage, strong faith, great wisdom, and untiring effort. Your actions, during not one but many crises, show that you possess these virtues. Above all, your decision to resist the demand for your resignation should prove to the whole world that you possess the virtue of integrity - a virtue which is lacking in all too many people today.

A reconciliation of views while remaining faithful to personal and national convictions is difficult to obtain. Too many men put their own selfish interests above the welfare of mankind. They may distort the facts in order to obtain their way. Your emphasis upon truth is to be commended for not only does a careful scrutiny of truth lead to peace but it becomes the basis for making men free. The ideas which you expressed as guest editor for the October issue of the NEA Journal definitely point to the fact that you, Mr. Hammarskjold, are the man for these critical times.

May your faith and courage be strengthened by the knowledge that others are praying with you and for you in this dark hour. Remember it is always darkest before the dawn and that Good Friday must always precede the glories of Easter Sunday. May the words of Christ comfort you - "Blessed are the peacemakers: for they shall be called the children of God." (Matthew 5:9.) God bless you and increase your wisdom with His Divine Guidance.

Sincerely yours,

Dear Mr. Hammarskjold:-

Please, please, please stick to your important job with the United Nations. You have been a tower of strength for the common people of the World. Just keep up your intestinal fortitude because that is what it will take for some of the terrible leaders in some countries.

Nikki Khrushchev is the Worlds biggest liar and the Worlds biggest thief. He is not the Worlds biggest murderer only because Hitler beat him to it.

Nikki has never kept any agreements either verbal or written and NEVER will. He is kidding all of us . Communists plan for a thousand years to take and hold command .Unfortunately we, U.S. and others have been living from episode to episode.

Nikki has been the biggest advocate of Colonialism of anyone. He takes what he wants by the sword.

Good luck to you and do not falter. The people are behind you .

Dear Mr. Hammerskjold,

We constitute a minority of the American people, however our feelings toward you and your position express the emotions of all Americans.

It is our opinion that for the United Nations to remain strong and active in world affairs, there must be a capable neutral leader to keep the balance of power. In the past years you have proven yourself worthy of the trust and admiration of the citizens of the United States and people all over the world.

The future of all people, regardless of race, religion, or nationality, is entrusted in your hands. Because of your praiseworthy judgement, we expect a great future for the world.

The fact that the United Nations was organized so that nations of different ideologies may meet and promote mutual understanding is another reason why a strong unbiassed Secretary General is a grave necessity.

We believe that you have given the world organization this vital leadership and urge that you rebuff any further indignation put to you by Communist powers and remain as its official voice.

We stand profoundly behind you in your struggle toward maintaining peace and promoting welfare for the world.

Dear Mr. Hammarskjold,

I am very shocked to hear of the insults hurled at you by communists leaders. I'm not writing about that, though. I'm worried about the new members of the United Nations and their future and ours. Please, Mr. Hammarskjold, warn these new peoples of the threat of communism overwhelming them and killing their spirit of freedom and patriotism. They've shown the world that they want to be free, they want to rule themselves, they want liberty. I'm only 15 but I've read in books that the aim of Communism is to rule the world, someday. I fully understand that a brilliant man, like yourself, is aware of this fact. Please

make these new nations aware of it? I'm not a diplomat, but you are. You can do this for me. I want to grow up in a peaceful, free world. I think my classmates would, too.

I want you to know that many people here are behind you and your policies. We're proud of the way you took the unjust accusations thrust before the eyes of the world in an attempt to belittle you.

All I want to know is that the people of the world are constantly being warned of the perils of communism. I've studied about it and I, personally, think I would rather die than live under it or be ruled by it.

Thanks for your time and your effort.

Yours very sincerely,

Honorable Sir:

I feel that during the past years you have carried out your duties in the United Nations as carefully as possible. I realize that your job is of great importance and is difficult to execute, but you have done an exceptional job of managing the affairs of the United Nations.

If you should quit your job due to pressure from rival nations, I am sure that the organization of the United Nations will be placed in greatest jeopardy... that of complete annihilation.

Please, sir, remain firm and make the decision to continue in the service of the United Nations. That organization is in urgent need of your invaluable services. Thank you.

Sir:

I know you are extremely busy and may not have time to read all the mail you must receive daily, but having read and observed your recent efforts in the Congo and in the U. S., I felt that I had to write you. I am a private American citizen, I do not hold any public office so my motive in this letter is certainly not to express any "expert" views on U. S. policy.

I feel that your tireless efforts and actions in coping

with the Congo crisis — not coping,
but handling the Congo crisis) was both justifiable and admirable. That was expected of you. But what I felt I must write of was the way you reacted under the deluge of insults hurled at you by the Soviet Chairman, N. Khrushchev

When he unjustly assailed you, you listened with the dignity of a gentleman sans desk pounding. Your brilliant replies resulted in the assembly supporting you with thunderous applause. Your reply was like listening to my country's national anthem and I felt a lump in my

throat.

The realization came to me shortly after your reply of Oct. 3rd to N.K. That here is a man not responsible to a single country, but to a multitude of nations. I pray to God that your great burden will be lightened by success after success.

So I would like to end this letter by telling you how much I and other Americans like myself appreciate the good work you are doing.

God bless you and stay with you always.

Dag Hammarsköld!

Ännu en vädjan från en av oss "vanliga människor", i den mån det finns några sådana, men från oss alla, som sakna all auktoritativ betydelse i de större sammanhangen, men som tänker och kanske känner varmare än många för vår jords och mänsklighetens framgång och framtid och som ville kunna påverka förhållandena i världen till i varje fall eninriktning mot det frids- och lyckorike, som vi nog alla i vårt innersta längta efter och hoppas på; jag gör mig nu till tolk för denna säkert stora kategori "vanliga människor" och vädjar till Er, Dag Hammarsköld, att inte låta den sovjetsryska regimens attacker mot det nuvarande Fn och de sannt demokratiska principer som detta representerar, få framgång genom Er avgång som Generalsekreterare. Detta är i sanning int3 endast en sak som gäller politiker och statsmän eller ens slutligen enbart Fn:s inre förhållanden, utan i lika hög grad oss alla, var och en enskild individ och personlighet ute i världen och vi vet, att vi nu bara har Er, Dag Hammarsköld att lita till och tro och hoppas på. Ni vet förstås också, att det ryska misstroendevotet mot Er inte är motiverat av bristande förtroende för Er kapacitet eller Era personliga kvalifikationer, utan tvärtom om av en välgrundad respekt just för dessa Era egenskaper, vilka inte alls passar för den internationella bolsjevismens syftet.

Inte bara Fn men också hela vår jord och vi människor, som lever här och vill få leva vidare som fria och människovärda individer, vi behöver Er och vi litar till Er nu och vi tro på Er som Världens frälsare nu, politiskt och i sann medmänsklig mening personligt Ni är vårt hopp, vårt enda nu, och vi vädjar till Er att inte svika detta, att inte av "politiska" skäl vika undan för ett avsiktligt försök att sabotera Fn:s o demokratiens heliga och omistliga principer för mänsklig samvaro och samlevnad här på jorden.

Dear Mr. Hammarskjöld,

The last Assembly has certainly been a difficult one but as I follow the news I am constantly reminded of the greatness which your leadership has brought to the human race. You and your colleagues from all over the world, representing so many cultures, beliefs and political goals, are doing such a magnificent job. This, in the stern face of seemingly insurmountable obstacles at times.

Since your inception I have read your words with deep admiration; your wisdom, patience and understanding under circumstances which must surely try these to the utmost, is an inspiration to all humans, everywhere. You have dealt with the major political powers in the role of psychiatrist to the world, hearing their grievances and conciliating these where humanly possible; ferreting out the causes of disturbance with such forbearance and with no lesser endeavour where the smaller countries are concerned.

History of mankind entered a new era with your advent and it is my fervent hope, as of countless others, that you will be permitted to continue to deal with the world's differences as you have so ably in the past. I hail you, as countless others do, as the leader for global peace and order; as a great humanitarian and diplomat.

As a portrait painter, my position in life is non-political but since world politics and humanitarian goals are seemingly indivisible one cannot but maintain keen awareness. Perhaps some day I too can assist somehow in furthering the great peace goals which are your way of life. With sincere admiration,

Gentlemen:

Quote: "United we stand,
'divided we fall." The words:
unity and united; fail to describe,
the necessity, of any International
Conciliatory Negotiable and Arbitrary
Cosmopolitan Confederation; or any
International Conciliatory Cosmopolitan
Confederation.

Equitable division, of racial
discord, cannot be consolidated,
into a universal accord.

You can settle back, a little
better now, relax, put yourself at
ease again and meditate: Peace! Everla!

Regards! "you! all!"
Sincerely,
L. Joachim P. Chilly.

My Dear Mr. Hammarskjold,

The cause of A FREE WORLD cannot afford that you "desert the ship".

If obstinacy is permitted to thrive and flourish, then it must follow that obstinacy will one day rule supreme.

Observer

"The epidemic of world lawlessness is spreading. When an epidemic of physical disease starts to spread, the community approves and joins in a quarantine of the patients in order to protect the health of the community against the spread of the disease..... The will for peace on the part of peace-loving nations must express itself to the end that nations that may be tempted to violate their agreements and the rights of others will desist from such a course. There must be positive endeavors to preserve peace."

Sec.-General Dag Hammersjold,
United Nations,
New York, N.Y.

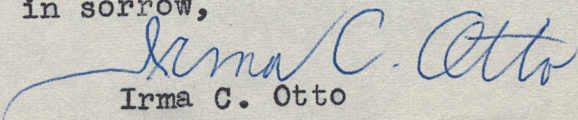

Dear Mr. Hammersjold:-

My grandparents were born in Sweden--and thru the years I have always expected of ALL Scandinavians integrity and honorable conduct. I want you to know that I am utterly ashamed of you as a Swede and a human being, in your shameful conduct in the Congo affair.

On YOU rests the guilt for the murder of Patrice Lumumba--for this courageous man called on the United Nations for help--and you stood by on the other side and let him be deposed, imprisoned, murdered--without lifting a finger! You have proven that you are a tool of the colonialists--and not a true and honorable servant of all the nations of the UN.

"No man can serve two masters; no man can serve God and Mammon." You have chosen to serve Mammon---Satan. May God reward you for your traitorous conduct. No nation will again trust you--save those few that seek to live on the blood and toil and enslavement of the darker-skinned children of God. Your action has brought upon you a curse which will follow you to the end of your days! How can you hold up your head in the UN? Or are you utterly shameless and conscienceless? You have served your masters well--but you have betrayed God and humanity. "What shall it profit a man if he gain the whole world and lose his own soul?" You must still face the eternal God with blood on your hands and betrayal in your soul!

Yours in sorrow,

Irma C. Otto

According to a N. Y. Times editorial you are the
secretary-general of the capitalist nations of the

Mr. Dag Hammarskjold
Secretary General United Nations
New York N.Y.

Dear Mr. Secretary:

To begin this letter I want to say don't give up the ship to the remarks and actions of the big wind bag NAKITA. Any head of state that conducts himself as he did the last time he was here in the United States should never be allowed to come in and associate with people of dignity after carrying on in the manner that he carried on.

Russia does not pay her part in the Congo so why does she have such a loud voice in what is done there? I understand there is a clause in the United Nations charter that says when a nation or member fails to pay her part she is to be denied the privilege of participate, I think after the way Russia has attacked you, you would be well in your rights to demand her expulsion from the United Nation. If I had my say Russia or communist China would never be allowed to open an embassy in a free world country.

I watched the demastration put on by the negros during Mr Stevensons talk yesterday and I must say I was as shocked as Mr. Stevenson at such an outbreak, I think the guards should be equipped with billy clubs to raise a few knots on those black heads instead of their fists, from my own experience I know there is nothing harder than a negros head and it will tear a mans hand to bits.

We all know Russia is behind all the disturbances around the world and I for one am willing to start a campain to oust her from every country and make her stay with in her own boundries.

Mr. Secretary you were elected to office by the majority of men from the free world so in closing may I once again say don't quit your office until those same men vote you out.

Sincerely Yours

Thomas' H. Owen

Dear Mr. Hammarskjold:

As one lone voice in the wilderness, I wish to commend your activities as related to the Congo situation. And in particular to endorse your courage in facing the vindictiveness of the outrageous Soviets.

I am reminded of a quotation:

"Whether you be man or woman you will never do anything in this world without courage. It is the greatest quality of mind next honor."

You have both: Courage plus Honor.

Do not resign. We are with you.

Cordially yours
