Dear Mr. Hammarström,

Our mutual friend, Aake Wetterlund, has (believe
written you, mentioning that I might be getting in touch with you.
I had occasion to be in Geneva today and came by the hotel
hoping I might have a few minutes with you to extend a very
warm welcome to the United Assembly for MRS which is now
proceeding in Caux.

I know how busy your days are - but I would urge
that if possible you might find the time for a visit. There is real
hope there for a new approach - there are many delegates from
Asia - 50 arrived on a special plane from India, Burma, Ceylon
and Pakistan this week.

A weekend is a very good opportunity to see the
programme in action, also the plays which were recently performed
in Geneva for delegates to the Asian and LHO Conferences.

I shall be in Geneva again next week and would
appreciate the opportunity of a word with you on this subject - I
can always be reached by telephone at Montreux 6.42.41.

With every good wish,

Yours very sincerely,

Morris H. Martin -
