SVENSKA LJUSARMATURFÖRENINGEN

Allmänna leveransbestämmelser.

Leveransplats och transportrisk.

Leverans sker fritt banvagn, lastbilscentral, fartyg eller post å produktionsorten. All transport sker på köparens risk. För skador, som kan uppstå under transporten, ansvarar säljaren såvida icke. På särskild anmodan ombesörjes transportförsäkring av gods, varvid försäkringskostnaderna debiteras köparen.

Betalning.

Betalning skall, där ej annorlunda föreskrivits, ske inom 30 dagar från leveransdatum antingen kontant med högst 2 % kassarabatt eller netto med accept per 3 månader.

Emballage.

Emballage debiteras till självkostnadspris.

Fel i varan.

Av säljaren godkänd kvalitetsanmärkning på varan äger denne rätt att reglera genom leverans av ny vara. Anmärkning skall vara framställd inom 14 dagar efter varans mottagande.

Tidigare levererad vara skall, om säljaren så önskar, återsändas. Någon ytterligare ersättning för direkta eller indirekta skador kan ej åläggas säljaren.

Returer.

Endast sådana returer, vartill säljaren varit vållande, t. ex. genom felexpedition eller fabriktionsfel, godkännes utan extra kostnader för köparen.

För övriga av säljaren godkända och senast 14 dagar efter mottagandet av varan verkställda returer krediteras köparen fakturabeloppet med avdrag av minst 10 % samt frakt- och emballagekostnader.

Anbud, priser m. m.

Vid alla försäljningar gäller där ej annat avtalats leveransdagens pris, och säljaren förbehåller sig rätt till ändring av anbud, priser, rabatter, konstruktioner och mått utan föregående avisering.

Ritningar m. m.

Enligt lagen den 29 maj 1931 med vissa bestämmelser mot illojal konkurrens är det förbjudet att obehörigen använda sig av eller giva annan del av ritning, mönster, modell, schablon eller annan teknisk förebild, som anförtros någon för utförande av arbete eller eljest för affärsändamål.

Leveranstid.

Leveranstiden räknas — om ej annat avtalats — från den dag då tekniskt klarställd beställning ingått till säljaren.

Leveranstiden skall anses förlängd med en mot dröjsmålet svarande tid, därest:

a) under leveranstiden erforderliga tekniska uppgifter från köparen ej kommit säljaren tillhanda i rätt tid;

b) köparen eller hans ombud begär sådan ändring i leveransen, som kan föranleda tidsutdräkt;

c) säljaren bevisligen hindrats i leveransens fullgörande genom arbetskonflikt eller annan omständighet, såsom eldsvåda, krig, oförutsedda militärinkallelser, rekvisition, beslag, valuta-restriktioner, uppror och upplopp, knapphet på transportmedel, allmän varuknapphet, kassation av större arbetsstycken, brist på arbetskraft, inskränkningar i fråga om drivkraft samt fel i leve. anser från underleverantörer eller fösening av sådana leveranser till följd av sådan omständighet, som avses i denna punkt, när säljaren icke kunnat råda över dylik annan omständighet.

Konsignationslager.

Konsignationslager utlämnas icke i någon form.

Skiljedom.

Tvister i anledning av avtalet och till detta fogade bestämmelser samt tvister rörande däri oförmälda och därav härflytande rättsförhållanden med vad därmed äger samband får ej dragas under domstols prövning utan skall slitas genom skiljemän enligt svensk lag, dock att säljaren för indrivning av fordran på köpeskillning äger rätt att anlita allmän domstol.
